Incapacitation (INCAP) Pay

• RC INCAP pay is similar to workman’s compensation. It is based on USC Title 37, Section 204 and 206.

• Information about INCAP pay is available in AR 135-381, Incapacitation of Reserve Component Soldiers and DA Pamphlet 135-381, Incapacitation of Reserve Component Soldiers Processing Procedure.
The objective of INCAP pay is to compensate, to the extent permitted by law, members of the RC who are unable to perform military duties and/or who demonstrate a loss in civilian earned income as a result of an injury, illness, or disease incurred or aggravated in the line of duty and to provide the required medical and dental care associated with the incapacitation.
INCAP Pay (Cont.)

- INCAP pay has two purposes:
  1. It provides medical care and
  2. Compensates RC Soldiers who lose military or non-military income as a result of the service connected injury or illness.

- RC Soldier must have a line of duty determination for continued medical/dental care and INCAP payments.
INCAP Pay (Cont.)

- Soldier is entitled to base pay and allowances. Income benefits are limited to six months unless there are extenuating circumstances.
- Extended income benefits, greater than six months, are approved at the Chief, Army Reserves and Chief, National Guard Bureau level.
- To receive INCAP pay, the Soldier must initiate paperwork at unit level to their supporting Reserve Pay Office: an approved line of duty, INCAP monthly claim form (disclosing other income and if self-employed, copies of federal income tax return with supporting documentation); physician’s statement; and all medical documentation.

- Provides a second health assessment using DD Form 2900 (Post-Deployment Health Reassessment) during the three to six month period after return from deployment.
PDHRA (Cont.)

• The reassessment is scheduled for completion before the end of 180 days after return so that Soldiers have the option of treatment using their TRICARE health benefits.

• After completing the DD Form 2900, a healthcare provider will discuss with the Soldier any health concerns which they indicated on the form and will make referrals to appropriate healthcare or community-based services for evaluation or treatment if needed.
PDHRA (Cont.)

• The completed DD Form 2900 will be placed in the Soldier’s permanent medical record.

Eligibility for VA health care is dependent upon a number of variables, which may influence the final determination of the services for which you qualify. These factors include the nature of a veteran’s discharge from military service (e.g., honorable, other than honorable, dishonorable), length of service, VA adjudicated disabilities (commonly referred to as service-connected disabilities), income level, and available VA resources among others.
